Recommendation

Financials

Implementation

Conclusion

Recommendation

Phase 1: Divestment of Portland Mall

- Profitability is Declining
- Lower Middle Class
- No major improvements made in recent past
- Maximum Encashment before depreciation of asset
- Presence of Walmart and other retail outlet competitors

Phase 2: Remodelling of Connecticut Mall

- Understand Social Demographics
- Alternate avenues of Earning
- Improve Retail Experience

FINANCIAL STRUCTURE AND IMPLICATIONS

Ownership Structure

■ Father ■ President and CEO ■ Brother ■ Sister ■ Father's Sister in law

In case there is a difference of opinion in the board, decisions can be passed by the CEO due to majority shareholder value totalling at 55%

Father's opinion leans in the direction of divesting a part of the business

Conclusion

- We will divest sections of our Portland mall to service debt for other businesses based on evidence provided in the case
- We will understand demographics of the target audience and remodel Connecticut mall
- We will include desirable avenues and experiences suited to taste of our customer and aim to increase time spent inside the mall. This will also increase impulsive buying
- This will increase revenue and also improve shareholder value
